

REMARKS

The Specification has been amended to include reference to PCT application number PCT/ AU2004/001525 filed November 5, 2004, which claims priority to Australian Provisional Patent Application Serial No. 2003906115 filed on November 5, 2003.

A separate copy of said claims as filed before the International Bureau is attached hereto and confirmation that said claims are pending herein is requested.

Entry of the foregoing amendments and early and favorable processing in the National Phase before the United States Patent and Trademark Office is courteously solicited.

Respectfully submitted,
